

(b) *Allowable operations.* If BLM has not completed the mineral examination report under paragraph (a) of this section, if the mineral examination report for proposed operations concludes that a mining claim is invalid, or if there is a pending contest proceeding for the mining claim,

(1) BLM may—

(i) Approve a plan of operations for the disputed mining claim proposing operations that are limited to taking samples to confirm or corroborate mineral exposures that are physically disclosed and existing on the mining claim before the segregation or withdrawal date, whichever is earlier; and

(ii) Approve a plan of operations for the operator to perform the minimum necessary annual assessment work under § 3851.1 of this title; or

(2) A person may only conduct exploration under a notice that is limited to taking samples to confirm or corroborate mineral exposures that are physically disclosed and existing on the mining claim before the segregation or withdrawal date, whichever is earlier.

(c) *Time limits.* While BLM prepares a mineral examination report under paragraph (a) of this section, it may suspend the time limit for responding to a notice or acting on a plan of operations. See §§ 3809.311 and 3809.411, respectively.

(d) *Final decision.* If a final departmental decision declares a mining claim to be null and void, the operator must cease all operations, except required reclamation.

**§ 3809.101 What special provisions apply to minerals that may be common variety minerals, such as sand, gravel, and building stone?**

(a) *Mineral examination report.* On mining claims located on or after July 23, 1955, you must not initiate operations for minerals that may be “common variety” minerals, as defined in § 3711.1(b) of this title, until BLM has prepared a mineral examination report, except as provided in paragraph (b) of this section.

(b) *Interim authorization.* Until the mineral examination report described in paragraph (a) of this section is prepared, BLM will allow notice-level operations or approve a plan of oper-

ations for the disputed mining claim for—

(1) Operations limited to taking samples to confirm or corroborate mineral exposures that are physically disclosed and existing on the mining claim;

(2) Performance of the minimum necessary annual assessment work under § 3851.1 of this title; or

(3) Operations to remove possible common variety minerals if you establish an escrow account in a form acceptable to BLM. You must make regular payments to the escrow account for the appraised value of possible common variety minerals removed under a payment schedule approved by BLM. The funds in the escrow account must not be disbursed to the operator or to the U.S. Treasury until a final determination of whether the mineral is a common variety and therefore salable under part 3600 of this title.

(c) *Determination of common variety.* If the mineral examination report under paragraph (a) of this section concludes that the minerals are common variety minerals, you may either relinquish your mining claim(s) or BLM will initiate contest proceedings. Upon relinquishment or final departmental determination that the mining claim(s) is null and void, you must promptly close and reclaim your operations unless you are authorized to proceed under parts 3600 and 3610 of this title.

(d) *Disposal.* BLM may dispose of common variety minerals from unpatented mining claims in accordance with the provisions of § 3601.14 of this chapter.

[65 FR 70112, Nov. 21, 2000, as amended at 66 FR 58910, Nov. 23, 2001]

**§ 3809.111 Will BLM disclose to the public the information I submit under this subpart?**

Part 2 of this title applies to all information and data you submit under this subpart. If you submit information or data under this subpart that you believe is exempt from disclosure, you must mark each page clearly “CONFIDENTIAL INFORMATION.” You must also separate it from other materials you submit to BLM. BLM will keep confidential information or data marked in this manner to the extent required by part 2 of this title. If you

## § 3809.115

do not mark the information as confidential, BLM, without notifying you, may disclose the information to the public to the full extent allowed under part 2 of this title.

### **§ 3809.115 Can BLM collect information under this subpart?**

Yes, the Office of Management and Budget has approved the collections of information contained in this subpart under 44 U.S.C. 3501 *et seq.* and assigned clearance number 1004-0194. BLM will use this information to regulate and monitor mining and exploration operations on public lands.

### **§ 3809.116 As a mining claimant or operator, what are my responsibilities under this subpart for my project area?**

(a) Mining claimants and operators (if other than the mining claimant) are liable for obligations under this subpart that accrue while they hold their interests.

(b) Relinquishment, forfeiture, or abandonment of a mining claim does not relieve a mining claimant's or operator's responsibility under this subpart for obligations that accrued or conditions that were created while the mining claimant or operator was responsible for operations conducted on that mining claim or in the project area.

(c) Transfer of a mining claim or operation does not relieve a mining claimant's or operator's responsibility under this subpart for obligations that accrued or conditions that were created while the mining claimant or operator was responsible for operations conducted on that mining claim or in the project area until—

(1) BLM receives documentation that a transferee accepts responsibility for the transferor's previously accrued obligations, and

(2) BLM accepts an adequate replacement financial guarantee adequate to cover such previously accrued obligations and the transferee's new obligations.

[65 FR 70112, Nov. 21, 2000, as amended at 66 FR 54860, Oct. 30, 2001]

## 43 CFR Ch. II (10–1–03 Edition)

### FEDERAL/STATE AGREEMENTS

### **§ 3809.200 What kinds of agreements may BLM and a State make under this subpart?**

To prevent unnecessary administrative delay and to avoid duplication of administration and enforcement, BLM and a State may make the following kinds of agreements:

(a) An agreement to provide for a joint Federal/State program; and

(b) An agreement under § 3809.202 which provides that, in place of BLM administration, BLM defers to State administration of some or all of the requirements of this subpart subject to the limitations in § 3809.203.

### **§ 3809.201 What should these agreements address?**

(a) The agreements should provide for maximum possible coordination with the State to avoid duplication and to ensure that operators prevent unnecessary or undue degradation of public lands. Agreements should cover any or all sections of this subpart and should consider, at a minimum, common approaches to review of plans of operations, including effective cooperation regarding the National Environmental Policy Act; performance standards; interim management of temporary closure; financial guarantees; inspections; and enforcement actions, including referrals to enforcement authorities. BLM and the State should also include provisions for the regular review or audit of these agreements.

(b) To satisfy the requirements of § 3809.31(b), if BLM and the State elect to address suction dredge activities in the agreement, the agreement must require a State to notify BLM of each application to conduct suction dredge activities within 15 calendar days of receipt of the application by the State. BLM will inform the State whether Federally proposed or listed threatened or endangered species or their proposed or designated critical habitat may be affected by the proposed activities and any necessary mitigating measures. Operations must not begin until BLM completes consultation or conferencing under the Endangered Species Act.
